OKIOFFICE *1200*

OKIOFFICE

OKIOFFICE *1200*

TECHNICAL FEATURES

Fax Features

- Modem speed - 14.400bps
- Transmission speed - 6 seconds*
- Memory - 8MB/650 pages**
- Scanning speed - 2 seconds
- Greyscale - 256 levels
- Resolution - Normal, Fine, Ex Fine
- Autodialler - 55 one-touch and 145 speed-dial
- Broadcast locations - 230 locations (32 groups)
- Security features - passcode protection, security reception/transmission, Securemail TX, Batch TX, Broadcasting, departmental tracking, closed network, ITU sub-addressing
- Memory back-up - 72 hours

Optional Fax Features

- 8MB memory card - total 16MB/1330 pages

Digital Copier Features

- Scanning method - Flatbed CCD 300dpi
- Printing method - Digital LED 600dpi
- Copy speed - 12 cpm
- Half-tone - 128 levels
- Contrast control - 5 levels
- ADF capacity - A4 50 sheets/A5 50 sheets
- By-pass - 50 sheets
- Paper cassette #1 - 500 x A4, Letter and Legal sheet capacity
- Document sorting - multi-copy up to 99 sets
- Reduction/enlargement - 50% to 200% with preset and 1% increments
- Copy quantity - 1 to 99 copies

Optional Copier Features

- Paper cassette #2 – 500 x A4, Letter and Legal sheet capacity
- 2 Bin Sorter

* Based on memory to memory transmission of ITU-T Test Document 1
** Based on ITU-T Test Document 1 stored at normal resolution
*** For maximum performance this option requires additional memory

Scanner Features

- Scan resolution - 300dpi
- Software - Class 1 compatible software
- Interface - Serial

Optional Printer Features

- Print resolution - 600dpi
- Printing speed - 12 ppm
- Emulation - GDI, Windows™ 95/98, 9X, NT4, 2000
- Interface - parallel
- Network Interface Card
- PCL6 printer controller and TWAIN driver
- Mechanical page counter

Specifications/Operating Conditions

- Type - Digital fax, copier, scanner and printer with high speed fax, platen copier, flatbed scanner and 600dpi Digital LED printer
- Phone line - PSTN or equivalent
- Modem - 14,400 with automatic fallback to 12,000, 9,600, 7,200, 4,800 and 2,400 bps
- Compatibility - Group 3, ITU-T
- Transmission speed - 6 seconds per page*
- Document feeder - 50 pages
- Resolution - Normal 203H x 98V dpi. Fine 203H x 196V dpi Exfine 203H x 392V dpi
- Data compression - MH, MR, MMR
- Minimum original document - 120mm(W) x 100mm(H)
- Maximum original document - 306mm(W) x 900mm(H)
- Print width - A4: 206mm / B4: 251mm
- Scan width - 294 x 252mm selectable
- Recording paper - 400 x A4/B4/B5/A5 (upgradable to 800 sheets)
- Dimensions - 532mm x 615mm x 387mm (W/D/H)
- Power - 230 volts AC = 10%, 50/60Hz
- Stand-by power consumption - 21w
- Weight - 32kg

OKIOFFICE *1200*

Multi-Function Peripheral

Digital Multi-Function, Fax, Copier and Printer

Convenience, functionality and an all-in-one solution to faxing, copying and printing in the small office and home office environments: the OKIOFFICE *1200*.

With the **OKIOFFICE** *1200* at the heart of your document workflow you'll gain a host of productivity-enhancing features at your fingertips. But the benefit of compact multi-functionality is only one of the reasons for making the **OKIOFFICE** *1200* your preferred choice.

A future-proof design philosophy, built around the core technology of Digital LED printing, means the **OKIOFFICE** *1200* can adapt to the changing needs of your business. Add more memory. Add network capability. Add more document processing features. And you'll still enjoy adding up the cost savings that your business could make by deciding to centralise the functions of four machines into one.

Technology without compromise

The **OKIOFFICE** *1200* incorporates an advanced Digital LED page imaging system that delivers exceptional standards of quality, performance and reliability. And printing at speeds of up to 12 pages per minute, it means less time waiting for faxes to arrive and more time to work on their content.

Triple access

Enjoy true multi-functionality with the **OKIOFFICE** *1200*. Through "triple access" you can print, receive faxes and scan documents for your next transmission, simultaneosly.

More time-saving features that make faxing easy

The most important features and functions that you would demand from a stand-alone fax machine are incorporated to the **OKIOFFICE** *1200*.

Fast scanning
It's fast on scanning, handling an A4 document in just 2 seconds.

8MB of expandable memory
The **OKIOFFICE** *1200* can store up to 650 pages of incoming faxes with its standard memory and up to 1,330 pages with extra memory installed. Even memory-intensive faxes can be stored in memory, so there's no need to worry about paper running out if faxes arrive out of office hours or from different time zones.

Batch transmission
Batches of up to 40 documents addressed to the same location can also be stored and kept for later sequential transmission - making great savings on long-distance call charges.

Easy access with one-touch and speed dials
Frequently used numbers can be programmed easily, with 200 auto-dials split into 55 one-touch and 145 speed dials – and up to 230 broadcast locations. It's far more convenient than keying-in every digit, and you are less likely to dial a wrong number.

Memory Back up
If your power supply fails, the **OKIOFFICE** *1200* retains incoming and outgoing faxes in its memory for 72 hours until power is restored.

More capability means more flexibility

Much more than a fully-featured fax machine with high-speed Digital LED print technology, the **OKIOFFICE** *1200* brings more efficiency to the way you process your documents.

Copying at 12 pages per minute
A high speed scan of your original document will produce up to 99 copies at just 12 pages per minute.

Flatbed scanner
The **OKIOFFICE** *1200* allows you to scan and make copies from books, files and ledgers directly from the platen. This helps reduce the need for a dedicated photocopier.

Sharp text and clean images
A 600dpi resolution and 128-level half-toning produces quality reproductions of photographs, pictures and illustrations. With user-selectable contrast control and the ability to reduce by 50% or enlarge by 200% at 1% increments, you are assured of fine control over your final copies.

Paper handling
The paper-handling system takes a full ream of paper in its standard 500 sheet cassette. This can be increased to 1,000 sheets with a second tray. Output copies can also be sorted electronically, with up to 99 originals collated with ease.

The hub of your document communications

The modular design of the **OKIOFFICE** *1200* allows you to add a PC/Network printing module so it can communicate directly with your PC or even over a Local Area Network. This helps to reduce costs further by eliminating the need for personal desktop printers for each individual in a workgroup.

Output is high quality: the same 600dpi resolution as the fax and the copier and it's just as fast, reaching speeds of 12 pages a minute. It can be fully integrated to allow you to fax and scan documents directly from your Windows™ desktop, using any Class 1 compatible PC fax software.

Major Applications

All offices need to fax, copy and print and the **OKIOFFICE** *1200* brings these functions together in a solution that often provides a better answer than the individual machines themselves.

OKIOFFICE *1200* highlights

- 8MB standard memory
- Total 200 auto-dialler
- 12 copies per minute digital copying
- Copy, fax and scan from platen glass
- Upgradable to 12 pages per minute page printer and network printer
